

# Early Voting

## OPT2VOTE, PROVIDING CHOICES FOR IMPROVING ACCESS AND PARTICIPATION IN VOTING.

The traditional method of turning up at a nominated Polling Station on Election Day deters many electors from voting. Due to hectic schedules and busier lifestyles, some people lose their vote because they simply cannot find time to vote on Election Day

**OPT2VOTE** has addressed these issues by providing increased choice and flexibility for voters through modern, convenient and innovative Early Voting Solutions. Early Voting allows people to cast their vote in advance of election day.

**OPT2VOTE's** Early Voting Solutions include:

- ✗ Vote Anywhere Polling Stations, allowing voters across a Borough the option to vote in a convenient place rather than being tied to a set Polling Station
- ✗ Ballot Paper Printing on demand
- ✗ Kiosks allowing electronic voting in polling stations

These products offer a greater level of convenience for electors resulting in improved voter satisfaction and an overall increase in the number of people voting.
