

Internet & Telephone Voting

OPT2VOTE'S INTERNET AND TELEPHONE VOTING SOLUTIONS ALLOW LOCAL AUTHORITIES TO PROVIDE IMPROVED ACCESS TO VOTING IN A SECURE CONVENIENT MANNER.

In today's modern era of advancement and increasing uptake of technology, there is a growing requirement for Local Authorities to offer a wide range of online services. Increasingly in elections, the use of internet and telephone registration is not only widely accepted by electors but also expected.

Some voters do not want to be restricted to the traditional method of turning up at a nominated Polling Station on Election Day to cast their vote. At the same time they do not want to lose their vote.

OPT2VOTE has addressed these issues by providing increased choice and convenience for voters through their remote voting solutions. These allow electors to vote online or via the telephone, in a fully secure environment, at a time and place convenient to them.

OPT2VOTE's tried and tested solutions provide:

- ✗ Increased convenience and flexibility for the voter
- ✗ Simple, easy to use method of voting
- ✗ Ease of access for disabled voters
- ✗ 24/7 access to website and telephone service
- ✗ Multi-Language capability
- ✗ Ability to vote in multiple elections
- ✗ Council specific branding of website and telephone service
- ✗ Fully auditable and traceable voting process
- ✗ Adherence to Government security standards guaranteeing voter confidentiality.
